6. Competitors who must check out of a vertical event for another may request the event official to complete his/her attempts at the current height out of order or opt to return to the event with the number of attempts remaining he/she was excused with. In both cases, the competition will continue, and the athlete will return at wherever the crossbar has been raised during his/her excused absence. Once the bar has been moved up in a vertical event it can't be moved down again.
7. For competitors who must check out in the throws and horizontal jumps the official can move an athlete to an earlier or later prelims flight to accommodate the athlete's absence. Once all prelim rounds have been completed, checked out athletes can no longer be inserted into the prelims order. If an athlete checks out during the prelims and has at least one legal attempt long enough to make the finals, they must be inserted into the finals.
8. The high jump and pole vault will be run using continuing flights of five (5) or the "5 Alive" system. When eight or fewer competitors are left one continuous flight will be run for the remainder of the competition.
